

JESSICA FERREIRA

AI Software Engineer | Fullstack · Product-Oriented · AI-Powered Systems
www.jessica-ferreira.vercel.app

SUMMARY

Software Engineer focused on AI-powered products and end-to-end fullstack development, with experience working directly with clients and multidisciplinary teams to transform early-stage ideas into scalable, production-ready web platforms. Brings a strong product mindset, combining technical execution, user-focused design, and autonomous ownership across the full application lifecycle: from concept and architecture to infrastructure, deployment, and iteration.

WORK EXPERIENCE

AI Software Engineer — Vestov

Sep 2025 - Present

- Client-facing end-to-end development from idea validation to production-ready web platforms.
- Fullstack development with React and Next.js, including user flows, UI structure, and deployment.
- Integration of AI-powered workflows and LLM APIs using prompt engineering.
- Infrastructure and cloud management, including databases, CI/CD pipelines, and deployments.

Software Engineer — CESAR

Oct 2024 - Sep 2025

- Development of AI-powered virtual assistant and ESG/GHG automation platform.
- End-to-end feature development using Python, React, and PostgreSQL.
- Agile practices including backlog organization, user stories, ceremonies, and cross-team collaboration.
- Debugging, testing, and contribution to scalable architecture decisions.

Software Engineer — JOTA

May 2022 - Oct 2024

- Fullstack development for JOTA Único, a personalized news platform with 2M+ monthly users.
 - Development using React, Next.js, TypeScript, Python, Node.js, and AWS.
 - Performance optimization, automated processes with AWS Lambda, and API improvements.
 - Collaboration with product, design, and stakeholders on KPIs, workflows, and feature delivery.
-

EDUCATION

Degree in Systems and Analysis Development

Uninabuco

ADDITIONAL INFORMATION

- **Technical Skills:** JavaScript, TypeScript, Python, React, Next.js, Node.js, Django, REST APIs, LLM APIs, Prompt Engineering, AI-powered workflows, AWS, Vercel, Managed Databases, Docker, CI/CD, Agile
- **Languages:** English (Fluent), Portuguese (Native), French (Working proficiency)
- **Certifications:** EF SET English Certificate (C2) · Google Women Techmakers (Speaker & Workshop Facilitator) · Game Jam das Minas (2023–2024)
